---

### Career Objective

A passionate Frontend Developer focus on building interactive, user-friendly web interfaces using React, Next.js and modern UI frameworks. Currently learning Three.js to create immersive 3D web experiences. I aim to grow as a full-stack(MERN) developer while contributing to impactful and scalable projects in a professional environment.

---

### Skills

**Front-End:** HTML5 | CSS3 | Tailwind CSS | JavaScript | React.js | Next.js | Three.js(Learning)

**Back-End:** Node.js | Express.js | MongoDB | JWT

**Tools & Technologies :** Firebase | Git | VS Code | GitHub | Vercel | Netlify | Postman | Figma

**Soft-skills:** Team Collaboration, Problem Solving, Time Management, Quick Learner, Adaptability.

---

### Projects

#### 1. My Garden App : Smart Gardening Tips & Management

[Live Link](#) | [Client Code](#) | [Server Code](#)

##### Features:

- Top trending tips are showcased on the homepage with animation and dynamic fetching.
- Private routes allow users to view full details, like tips, and add their own contributions.
- CRUD operations enable users to create, update, and delete their shared tips securely.

**Technologies Used:** Tailwind CSS, React.js, Node.js, Express.js, MongoDB, Firebase, JWT

---

#### 2. Historical Artifacts Tracker: Discover & Track Global Artifacts

[Live Link](#) | [Client Code](#) | [Server Code](#)

##### Features:

- Allows users to explore historical artifacts with images, descriptions, categories, and like counts.
- Users can contribute their own artifacts, update or delete them without affecting like counts or original user info.
- Backend secured with Firebase token verification and JWT interceptors.

**Technologies Used:** Tailwind CSS, React.js, Node.js, Express.js, MongoDB, Firebase, JWT, Sweetalert2

---

#### 3. TaskCoin: Micro Task & Earning Platform

[Live Link](#) | [Client Code](#) | [Server Code](#)

##### Features:

- Admin dashboard allows managing users, monitoring platform activities, and ensuring fair task allocation.
- Real-time task tracking and coin-based earning system keeps workers engaged and motivated.

**Technologies Used:** Tailwind CSS, React.js, Node.js, Express.js, MongoDB, Firebase, JWT

---

### Education

BSc (Honours)

Government Titumir College, Dhaka (2021 - Present)

---

**Languages :**      **Bangla:** Native      **English:** Intermediate      **German:** Elementary Proficiency
